The Raymond Leader

VOL. 12. RAYMOND, ALBERTA, FRIDAY, September 5th, 1913. No. 1

Boys Make Good at Calgary Meet.

Before giving any of the results of the races we must keep in mind that there were nearly 200 athletes taking part in the meet, who were selected men from a population of 200,000 people. To win a 1st., 2nd. or 3rd. place in such company is truly an honor particularly when our boys were not specially trained as were the other participants.

Don Skousen carried off 1st prize in both the high and low hurdles, there were probably 35 contestants in this event. R. Mayson took 2nd in the low hurdles and 3rd. in the high hurdles. Roy Skousen took second in the fifty yard dash and third, in the broad jump. Zeb Skousen took third in the pole vault.

Being forced to leave so early in the morning and travelling so far on the train in the forenoon our boys were not in their usual form. Had they made the records they do at our local sports there would have been a different showing at Calgary.

We know now how our local athletes compare with the best of them and if they go in for any more provincial sports, they will undoubtedly make good.

As it was, reckoning up all of the track and field points, Raymond won second place at the Alberta Provincial Meet, with 4 men.

W. A. Stevens, B. A., B. S. A. of the Alberta Agricultural College Claresholm, was in town today. He is here soliciting students for this college. He has been looking over the prospects here in the southern country. This portion of the Province, he stated was about 50 years ahead of the northern part, in their methods and the'ts on farm ing. A more extensive outline of courses etc. will appear in another issue. Mr. Stevens will be in our city one week from Sunday to hold a meeting or two, when he will explain anything desired. Announcement will be made later of the time on Sunday.

Local News

Telephone any interesting News Items to no 21. It will be appreciated.

Bren Bitner was in town last week from Harkers sheep camp.

Evelyn and Gordon Young returned to their home in Lethbridge last Monday morning.

Heber Allen is improving daily and is expected home in the near future.

"Utell's Dog Show" will be given at the Alta tonight and tomorrow night. Prices 15 and 25.

John T. Henniger Jr. has gone into a new venture, this time it is a large dairy he has purchased at Blairmore.

The first Raymond threshing occurred on the farm of Geo. W. Green, by C. F. Tollestrup. It graded No. 1 and averaged 25 bu. per acre.

The LEADER will issue a day earlier next week, to enable the editor to attend the Provincial Press Association Convention, at Edmonton.

Mrs. D. H. Kinsey received the sad intelligence that her neice Zoe Brotbank, nee Zoe Brimhall had passed away. Internal hemorrhage was the cause. Most of the townspeople knew her well and all mourn her death.

Owing to a misunderstanding all round, the proper list of prizes was not handed to the printer. No particular one of the directors is to blame, because each relied on the other to attend to it. Suffice it to say that the prizes advertized were not correct. Anyone wishing to know what they were can see Mark Brimhall.

Press notices regarding the big 5 reel picture which will be shown at the Rex next Monday night, were complimentary to a high degree. It is taken from Ambrosio's great drama "SATAN" and compares favorably with "FAUST." Two reels are taken from the Bible, two from "Prardise Lost" and one depicting modern times. Prices 25 and 15 See big add on back page.

Our Friends In Lethbridge

Mrs Pansy Gordon was visiting her sister Mrs. J. F. Gordon for a few days. She was accompanied by her daughters Hortense and Jean.

E. B. Hicks was in town last week arranging for the threshing of some of the big crops north of Lethbridge.

The man of many aliases who forged the name of R. C. Harvey to a check which the Hub management cashed, comes for sentence this week. Forgery is the only argument against learning to write and it is sometimes employed.

Miss Tillie Frank passed thro' Lethbridge on her way home after a protracted and pleasant visit at Cardston and other points in the south country.

Labor Day was fittingly observed by Lethbridge people by the sports held at the Exposition grounds. The football match was won by Lethbridge, but in the athletics and races, Raymond figured quite prominently. Grant Young took places in the 220 yd. dash, relay and pole vault. Bishop Young is an "also ran," getting second place in the old man's race.

The first rehearsal of "San Toy" was held Tues. evening. An excellent turn out was in attendance, evincing a strong interest in coming production. While the caste is not fully made it is decided that Miss Dorothy Young will have the title role "San Toy." Mr. Roberts, the musical director, also director of the Excelsior Male Choir most of whom have joined the Society, is elated over the prospects for success.

Mrs. Jed Kimball underwent an operation on Wednesday, for a tumorous growth in her side. She is doing well and her speedy recovery is predicted.

Prospects the Best For Knight Academy

To Open a Week from Next Monday, Few Changes in Last Years Faculty.

Atmo period since the Academy opened, have prospects been so flattering as at the present time. A wide-spread spirit of optimism pervades the community. The board of education expresses the most sanguine hopes for the incoming academic year, as do also the faculty, the prospective students, the parents and all interested parties.

And why not, the LEADER asks? Crops will average well. A spirit of progressive contentment has settled over the people. The Academy has in the main made good. There is an excellent faculty. The courses of study are comprehensive enough to meet almost any consistent demand. And lastly more of our boys and girls, grown up on these splendid health giving prairies, are beginning to take a deeper interest in things cultural. All these we say, make for the certain success of the Academy. And so be it.

The Faculty.

Few changes have been made in the personnel of last year's faculty. Heber P. Allen a graduate of the [illegible] the department of mathematics, while Matilda Walton, one of our native girls, will succeed Merlin Sheets in the domestic Science Department. Following is a list of next year's faculty, together with their respective lines of work.

Ernest Bramwell, B. A., B. Did. Civics, History.
Vard L. Tanner, B. A. Science, mathematics.
Edwin S. Poulson. Mechanic Arts, History.
Geo. O. Nye. Voice, piano, Chorus.
Maydell Cazier, B. A. Literature, English.
Heber F. Allen. Mathematics.
Matilda Walton. Domestic Art and Science.

In addition it is very probable that a special teacher will be added at least for the crowded part of the school year.

From the subjoined list, it will be seen that board of education have provided comprehensive courses of study, along lines too, which will meet the ever growing demand of this progressive community. It will doubtless be of interest to the many readers of the LEADER to know just the nature of the courses offered, hence we give a brief statement of each:

1—A four year high school course, designed especially to prepare students for the departmental examinations.

2—A four year special high school course, built up to meet the individual needs of the students.

3—A four year domestic arts course.

4—A four years domestic science course.

5—A four year mechanic arts course.

6—A four year music course.

7—A two year missionary course.

8—A one year special course designed chiefly for boys and girls somewhat matured who have outgrown the public schools.

9—A two year choristers' couse, the specific purpose of which is to prepare boys and girls to conduct choirs and lead the singing in the auxiliary organizations of the [illegible]

In addition to the foregoing courses regularly given in the Academy the LEADER is pleased to announce a special course in kindergarten tsaining, to be given for a period of eight weeks, commencing Oct. 13th. next. This special course will be given under the direction of the Deseret Sunday School Union, of Salt Lake City, Utah. One or more specially trained kindergarten teachers will be sent from the south to conduct the work. Every Sunday School, every Primary Association and every Religion Class in this and the Alberta Stake should have a representative in this kindergarten training.

In conclusion then let us all boost for the Knight Academy. It is our, not the faculty's institution. We built it and that too for the instruction and profit of our boys and girls. And now we have the building and the faculty, let us all reap the benefit, directly, by filling the departments with jolly good-hearted, studiously inclined boys and girls. It will pay. We cannot afford to do otherwise.

Town Council Meeting.

At the monthly Town Council meeting last night a pay-roll of $1340 75 was passed. Ray Powell petitioned for either raise of wages or over time money, as he is forced to work quite often, nights and Sundays. It was held over until next meeting.

H. Ostlund representing the town solicitors, reminded the council of the meeting to be held next Tues by Judge Jackson to dispose of the delinquent tax notices.

The water in the upper end of town was a minus quantity several days last week. We wish they could let us know when this was to occur so we could lay in a supply while on hand.

Lethbridge to Get Big Malting Plant.

Plans are nearing completion for the erection of a 250,000 malting plant in Lethbridge, and the promoters are confident that the government will erect in close proximity a 1,500 000 bushel internal storage elevator.

P. H. Rice the malster of Winnipeg, who is recognized all ove Canada and the central portions of the United States as the malting king, was a visitor with Mr. Geo. Green to the fair this week, and met a large number of leading farmers of this district, to whom he explained briefly the plans and urged their cooperation in the furtherance of the same. He had only a few hours to spend in the south country, having been summoned to Winnipeg on urgent business, but he made the most of it.

"The barley grown in this district is superior to any in the world," he said. "I have bought barley for the past 37 years and last year when I began to get some cars of it from this section direct, before it had been mixed with the barley grown in other provinces and in the nothern and central portions of this province and I di i not know that the people here had such an advantage. Your barley here is 100 per cent germinating; I have tried it right along, an I I bought all I could get last year, and from 6 to 10 cts. more per bu. than the prices quoted at Winnipeg or Fort William, delivered.

It is a plumper barley, containing more saccharine, and a lighter colored malt results. As the superior beers are the light beers there is a great demand for light colored barley, and I get a higher price for my product than any of the other malters and besides have more business than I can undertake to do. I have tried some of your barley this year, that is have tested it for germination, and it runs 100 per cent. Some people told me that 98 per cent is high, but I have found 100 per cent on half a dozen tests from as many fields. I saw barley at your fair that is the ideal barley for [illegible] and if I could get 100,000 of applicating it I would buy it right [illegible] cash.

Now [illegible] of barley [illegible] grades any on using hauls does not improve it a bit, everyone must realize, and furthermore there are lots of farmers who dont thresh their barley right. The threshing must be careful but not close, leaving the beard to protect the kernal, for a broken kernel will not germinate. I rejected hundreds of cars of barley at Winnipeg last year for that reason alone, and the farmers wonder why they don't get the higher prices I pay. They don't earn it because they are too careless in their threshing.

Now with the rapidly increasing trade I have in western Canada I have concluded that I can do better by putting up a big plant in Lethbridge, and I will save a large sum annually in freight alone, for every carload of malt I ship from Winnipeg west, and I ship a great many, having a fixed order for at least three car loads a week the year round from Lethbridge brewery alone, and I also supply a number of other large breweries, has to pay a high western freight rate and the grain has already paid a high eastern rate into Winnipeg. If we can get the barley we can make the malt right where it grows, permitting us to pay a much higher price to the farmers and encouraging them to do their level best to grow the ideal barley. It will mean more than 10 cents a bushel more than market prices airways, and futhermore it will overcome the necessity and expense of sacking, as is required for export trade.

I realize that other malsters and Scotch distillers have found out about the Southern Alberta barley, and they are going to come in and buy all they can. If I could get such as I have seen at the fairs hereabouts I could also do a big business handling barley for the big brewers in the states, for I know one brewing firm that alone would buy 20,000 - 000 of such barley a year. But there is big saving in the handling of barley right where it grows right in Lethbridge territory, for the waste is not charged against you as a freight bill, in other words you don't pay freight on lots of poor screenings and weed seeds etc., and you don't get robbed by crooked weighmen and elevator men who extract a good percentage out of every carload.

Our malting plant will force the big terminal elevator to be constructed by the government at Lethbridge. We must have stor-

[continued on middle page]

BRIEF LOCALS

We collect the assistance of our Patrons to make this column bright and interesting.

Miss Jennie Crane left Monday morning for Utah.

Miss Vivian Stevens is spending a few days with friends in Calgary.

Patriarch James Kirkham and daughter Myrtle left on Tuesday morning's train for home.

Mrs. Sparks and daughter Alice leave Mon. for a short trip to the States.

E. Bramwell, C. Buhler and H. Burr have their respective new homes nearing completion. Let the good work go on.

Jno. Christian won the $2.50 at the Rex drawing last Saturday night. Come and see who will get the $5.00 dollar coupon next Saturday.

Miss Ina Erickson and Lura Redd left last Monday to hold M. I. A. wards conferences in Taber, Grassy Lake and other wards in that district.

Miss Viola Allen entertained a few of her guest Aunt Zina Card's nearest friends last Saturday night. Everyone enjoyed themselves immensely.

NOTICE to unspeople will please take notice that all loose cattle are liable to estray pounding [illegible] forcing this law.

Wanted:—A young man to take agency for R. A. Wright's jewelry store. Good commissions paid. Chance for energetic man to make money. Apply to R. A. Wright Lethbridge.

The football eleven from Lethbridge who came over Labor Day to play our local men, went down to defeat before our classy team with a score of 3 to 1.

Matilda Walton who has been in Chicago for several months studying domestic science, returned last Tuesday night. She will be this years instructress of that particular department in the Knight Academy.

Notice is hereby given to all girls not caring to learn to swim in deep water that the flume is a much more desirable "bathing resort" than the mill pond, owing to the fact that that there is less mud in the bottom to burrow into when you sink.

Ellison Milling and Elevator Co. have contracted for a number of cars of bran to be shipped to New York. There is much demand for Canadian bran and shorts in the United States this year on account of the shortage in the corn crop. Better prices are now being realized for Canadian feed in New York, than can be got at home.

This is the first shipment of bran by the Ellison Mill to the United States but with increased capacity of their mill they will continue these shipments.

MRS. O. A. SILBY AND CHILD

Uses Only Cuticura Soap for Prize Baby

"I have always used Cuticura Soap and no other for my baby, and he has never had a sore of any kind. He does not even chafe as most babies do. I feel that it is all owing to Cuticura Soap for he is fine and healthy, and when five months old won a prize in a baby contest. It makes my heart ache to go into so many homes and see a sweet faced baby with the whole top of its head a solid mass of scurf, caused by the use of poor soap. I always recommend Cuticura, and time after time one of ten the next time I see the mother she says 'Oh! I am so glad you told me of Cuticura.'" (Signed) Mrs. O. A. Silby, Redondo Beach, Calif.

Although Cuticura Soap is sold by druggists and dealers everywhere, a postal to "Cuticura," Dept. 136, Boston, U.S.A., will secure a liberal sample, with 32-p. book on the care of skin, scalp and hair.

How to Preserve the Teeth

Teeth are composed of three different substances, dentine, which is chiefly calareous, being the most important part. Care must be taken to preserve the enamel which is the outer covering, because it preserves the others.

Acidity injure the teeth and in countries where many sweets are eaten, thereby causing acidity, early decay is noticed.

In places where the water lacks lime, false teeth are almost universal in quite young people. This is seen in many parts of Australia and South Africa. The very best dentifrices are often the most simple and inexpensive, chalk and orris root combined being almost unequalled.

Carbolic tooth powders are not suitable in every case, but most preparations containing a form of peppermint may be used without hesitation. The tooth brush should be used after every meal, especially when meat forms part of the menu.

If a hole appears in the tooth and it is not possible to have it attended to at once, the best cleansing agent and decay preventative is a small piece of cotton wool dipped in tincture of myrrh and inserted in the cavity. Many dentists do this to a tooth before stopping it, the wool should be changed daily.

An excellent mouth wash is made from two parts water and one of myrrh or myrrh and borax.

Strawberries are now well known as dental beautifiers.

Very cold water is not good, neither is very hot water.

It is not wise to retire to rest without cleansing the teeth.

When people suffer from gastric acid or nervous illnesses. It is very difficult to preserve the enamel and cresta petrosa, the latter being the Latin name for a bony tissue which connects the teeth to the socket. Therefore care must be taken of the general health as well as local attention to the mouth.

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations

Education Better Than Cash

Don't let the boys go to work merely because the first excitement of money earning is on them. Don't let them heedlessly sacrifice themselves that your own burden may be a trifle lighter. Your family is standing still when you do that sort of thing and not progressing as a Canadian family ought to progress. Look to the future of your boys, not to your present ease. They do not realize what they are missing but you do—especially if you have missed the higher education yourself. The evolution in the family is one of the finest things anyone can play, and it is one in which anyone may take a hand. Better hold to the old ideals and keep the boys in school. Your self-respect will increase if you do, and the harder it is for you to do it, the more satisfaction you will have from your achievement.

Cures Sprung Tendon, Collar and Saddle Galls

124 Martha ave., Winnipeg, October 11th, 1903.

"I have used your Spavin Cure on a Spring Pacific colt and must say I am pleased to be able to recommend it." J. Hamlin.

Kendall's Spavin Cure

is a blessing to farmers and stockmen. In the past 40 years Kendall's Spavin Cure has relieved millions of dollars in horse owners.

It is the one remedy the veterinary surgeon has absolutely confidence in, Bingham, Cork, Ireland, writes: "Kendall's Spavin Cure is the best remedy I have ever used for the kind of cases it claims to cure."

Never allow it, now or during the late winter, to be sold you. Keep Kendall's always handy. If a bottle should be used, and you are not satisfied after the first bottle, return the empty bottle to your druggist and get your money back.

Price $1. a bottle. 6 bottles for $5. Kendall's Spavin Cure, also Kendall's Horse Book—a treasure for horse owners—sent free. Address Dr. B. J. Kendall Co., Enosburg Falls, Vt.

Seldom See

a big knee like this, but many have a bunch or bruise on the ankle, Hock, Stifle, Knee or Throat.

ABSORBINE

Before After Bunch 3 days' use. Will clean them all without laying the horse up. No blister, no hair gone. $2.00 per bottle delivered. Book 2 K free. For special Directions and Book 3 F, Free.

ABSORBINE, JR., the antiseptic liniment for mankind. Reduces Painful Swellings, Sprains, Bruises, Wounds, Allays Pain, Inflammation, Varicose Veins, Varicocele, Old Sores, Alleys Pain, Stops Spreading of Spots and Eruptions. Price $1.00 a bottle at druggists or delivered. Manufactured only by W. F. YOUNG, P.D.F., 317 Lymans Building, Montreal, Can.

Also furnished by Martin Bole & Wynne Co., Winnipeg.

The trouble with a good many people is that they tell us all they know the first time we meet them, and the second meeting finds them out of mental coin.

Many there are who are loafing at the village grocery store when Opportunity is knocking at their door.

AN AERIAL WARSHIP

Zeppelin Airship Co. Turning Out Monster for German Army

A great aerial war vessel is being built for the German military authorities at the Zeppelin Airship Company's works at Friedrikshafen. Undeterred by the long series of catastrophies which has overtaken steerable balloons of almost every description, the German War Office is continuing its strenuous endeavors to build an aerial navy which will give Germany the undisputed command of the air, and the new cruiser will be larger and more powerful than any aerial vessel yet built exclusively for military purposes. She will, in fact, be only eight yards shorter than the monster passenger airship Schwaben, recently completed by the Zeppelin Company, and will be built on the same general lines.

The main difference will be the absence of the huge passenger car, which is swung amidships on the Schwaben, and which on the military vessel will be dispensed with. The extra margin of lifting power thus acquired will be utilized to carry the weight of armament and ammunition. As the new war vessel is to be equipped with artillery, in the shape of light machine guns. The vessel will have a total length of 133 yards and three Maybach motors, two of which will be six-cylinder machines, developing 150 horsepower each. She will be propelled by four screws, two at the stern being four-bladed and two mounted over the forward car being two-bladed.

The vessel is estimated to attain a nominal speed of about 45 miles an hour. The preliminary trials of the new aerial cruiser will probably take place within the next few weeks.

Minard's liniment cures garget in cows

One of the worst things we have to answer for is the habit of putting by-words into everything we say. It weakens our talk, belittles us in the eyes of those who love us, and ties us hand and foot against a good clean way of speaking. It is like throwing pepper sauce right into the eyes of people of good, clean, sensitive hearts. Let's break ourselves of this miserable habit.

The Kidneys Wear Out

But Many People of Advanced Years have learned how to keep these organs healthy by using

DR. CHASE'S

KIDNEY - LIVER PILLS

The kidneys are often the first organs to give out in body to cause trouble. Their work of filtering the blood is greatly increased by excessive eating or by the use of highly seasoned foods and alcoholic drinks.

As advanced age comes on most people suffer more or less from derangements of the kidneys. With some these are your first warnings, aches, with others Bright's Disease is soon developed and the end comes quickly.

To prevent a great many have learned about Dr. Chase's Kidney and Liver Pills, and are enabled by their use to keep the kidneys healthy and active.

This medicine is entirely different from ordinary kidney treatments, and invigorates the action of the kidneys and bowels. To this combined action is attributed its remarkable success.

Mr. Richard Preston, Elgin, Lambton county, Ont., writes:—"I have used and find the wonderful curative properties of Dr. A. W. Chase's Kidney and Liver Pills. Seventeen years ago I began the use of this medicine, when my back was so bad that to stoop or rise was torture to me. The kidneys were in bad condition, but these pills entirely freed me of back pains. I have used them ever since, whenever the kidneys would get out of order, and now, at eighty years, am well and hearty, thanks to this grand medicine."

Dr. A. W. Chase's Kidney and Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

The Farmer's Workshop

Have you ever stopped in your work to consider the importance of a workshop on the farm? If you have not, you may be obliged to do so some time when you break an important thing while in the midst of a busy season, and must go six miles for repairs. Whereas, if you had a workshop of your own right at home, you could make the necessary repairs yourself at very small cost.

To have a workshop with all necessary tools for repair work is far more important than it is given credit. For it can be utilized to make profit for you in many ways. During the long winter months there are many articles you could fashion into things of usefulness. I know farmers who, in their own workshop, have turned out harrows, doubletrees, hog racks, mudboats, and other articles various and numerous. Some are made for neighbors and generously paid for. The desk at which I am writing this was made in our own workshop by my brother, who is handy with the tools. He has had orders for duplicates from neighbors who have seen his work. I mention this as an illustration, that you may see what profit may be realized from hours spent in the workshop.

At one time we were threshing wheat, when, without warning, the feed board of the separator was smashed to smithereens by the belt flying off. "No more threshing today," the boss of the outfit said. "I've got to go to town to have this thing repaired."

"Give it to me," said the owner of the farm, and he took the wrecked feed board to his workshop, and out of new material he made one as good as the broken one. In an hour the machine was humming at work as merrily as ever before. The workshop is a valuable asset to the farm; it saves money to the farmer in many ways, as those who have one can testify.—J.A. Raiser, in Farm Journal.

MOONEY'S BISCUITS

ONE TIRED WOMAN AND ONE LITTLE OVEN

You have probably been there yourself—perhaps are right now.

Bright women all over Canada are getting away from this. They welcome **MOONEY'S BISCUITS** as a most acceptable substitute for their own bread and biscuits.

MOONEY'S PERFECTION SODA BISCUITS

are the crispest, creamiest crackers made. Better still, they are baked in Winnipeg; right at your very door. They come to you fresh as the product of your own oven.

You can have them in air-tight packages or sealed tins as you prefer.

LET MOONEY DO IT

Financial Reasons

Willie, mamma has a great surprise for you.

"Ah, I know what it is—big bruiver is back from his vacation."

"How did you know?"

"Why bank won't raise any more."

A MOTHER'S PRAISE OF BABY'S OWN TABLETS.

Mrs. B. S. Baker, East Margaretville, N. S., writes: "My mother would recommend for her baby any medicine of which she was not absolutely sure. A baby's life is too precious. A mother is always pleased to recommend to other mothers something that has been valuable in restoring the health of her own child. That is why I can highly recommend Baby's Own Tablets. They cured my baby who was suffering from constipation and I feel that I cannot praise them enough. I would advise all mothers with sickly babies to give them a trial, well knowing what the result will be." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Foolish Question

The editor of the woman's page was on his vacation and the sporting editor had jumped into the breach.

"Well, what do you think of this?" he snorted, as he held up a perfumed communication. "Here's a fool woman wants to know how to make a lemon tart; just as though a lemon wasn't tart enough already."

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

A Hint to the Shy

Shyness comes through lack of confidence, and to overcome shyness it is therefore necessary to overcome this feeling of diffidence and gain more confidence. There is nothing like quiet thought to help in the attainment of self-confidence, and the shy or timid person will gain much by taking a few minutes quiet and thought each day, during which time the mind is fixed on the cause of the shyness or flurry. Be determined not to become shy or nervous and reason with yourself as to why you should not become thus agitated.

Determine to rule yourself by your own thoughts and by your own reasoning powers.

Only Technically

"Is your child in bed by eight every evening?"

"Technically, yes. We begin arguing about that time."

Sores Heal Quickly—Have you a persistent sore that refuses to heal? Then try Dr. Thomas' Eclectric Oil in the dressing. It will stop smarting, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognised healer among oils and myriads of people can certify that it healed where other oils failed utterly.

"Do you think he would be cool in time of danger?"

"I think his feet would."

Do you ever have Headache, Toothache or Earache? Most people do. Sanipa Wizard Oil is the best household remedy and liniment for these everyday troubles.

A collection of buttons dating from the ninth century, left by a man who died at Ghent, has been found to be worth $40,000. It started with one taken from the robe of Charlemagne.

The man behind the plow is all right provided he does not get too far behind.

Why let that headache spoil your day's work or pleasure? Take

NA-DRU-CO HEADACHE WAFERS

25c. a Box at your druggist's.

Guaranteed to contain no morphine, opium or other poisonous drugs, by the National Drug and Chemical Company of Canada, Limited. 30 Montreal.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes sick strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glycerie extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy on known composition. Any one may know what many cures made by it during past 40 years, right in your own neighborhood.

World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

WINCHESTER

.401 Caliber

Self-Loading Rifle.

This new Winchester is reloaded by recoil, the repeating as well as the firing mechanism being under control of the trigger finger. A bullet fired from it strikes a blow of 2038 pounds—force enough to topple over the biggest game—penetration enough to reach the innermost vital spot. The wonderful in operation and powerful in execution, this rifle is neither complicated in construction nor cumbersome to handle.

It Hits Like The Hammer Of Thor.

Beware of Matchmaking

Matchmaking is a dangerous business. Literally it is so, for those little light-makers often burn their own fingers. If a mistake is made the people are apt to blame the person who brought them together and led them into matrimony. To recommend anyone for a husband or a wife is a very responsible business, and it is as a rule, best left alone.

A Pill for All Seasons.—Winter and summer, in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always and should carry them with him when travelling. They are made to withstand any climate and are warranted to keep their strength. They do not grow stale, a quality not possessed in many pills now upon the market.

Largest Banquet in the World

The greatest banquet in history took place on August 18, 1889, when the forty thousand mayors of France sat at a table in the Palais de l'Industrie, in Paris. There were three relays of about 13,000 guests each. To prepare the feast required 75 chief cooks, 13,000 waiters, scullions, cellarmen and helpers, 80,000 plates, 52,000 glasses, knives, forks and spoons in proportion, 40,000 rolls, and fish and meat and fowl by the ton.

CHEW DIXIE TOBACCO

W.N.U. No. 871.

An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater, as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

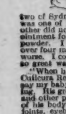
WOULD SCREAM FOR HOURS WITH ECZEMA

Baby Dreadful Sufferer, Could Not Keep Him from Scratching. Every Joint Affected. Used Cuticura Soap and Ointment and He Is Well,



"Enclosed find my son's photo and I feel by writing these few lines to you I am rendering my duty, as my son was a dreadful sufferer from eczema. At the age of two weeks he began to get covered with red spots on his legs and groins, which mother thought was red gum or thrush; but day by day it grew until every joint and crevice was affected and baby started screaming for hours day and night, such a thing as sleep was out of the question. Both dad and I were nearly worn out. I was one of the worst cases I had ever seen, and did not think any medicine could relieve my little one, so I determined for nothing in the other a dusting powder. I followed their prescriptions for over four months and still he was getting worse. I could not keep him from scratching as the sores was so agony.

"When he was five months old I tried the Cuticura remedies and I was thanking it was my baby's to-day free from all his suffering. He is going very bleeding now. Cuticura Soap and other parts affected were the lower part of his body under the knees, arms, in arm joints, eyebrows and neck; but after taking Cuticura Ointment I began to see a difference and by the time I had used one cake, along with the Cuticura Soap, baby was nearly cured. I still kept on using the Cuticura Soap and Ointment, and now, thank goodness, he is quite well and, although he is now ten months old, has not had any further return of the trouble." (Signed) Mrs. G. Merlin, Knight St., Erskineville, Sydney, N.S.W., May 31, 1911.

Cuticura Soap and Ointment are sold throughout the world and a liberal sample of each, with 32-page book on the care and treatment of the skin and hair will be sent free, on application to Potter Drug & Chem. Corp., 50 Columbus Ave., Boston, U.S.A.

The Height of Song

Miss Mary Garden at a supper in New York that preceded her departure for Europe, praised in new terms "He is one of those tenors," said Miss Garden, "who have to shut their eyes when they sing high notes.

"Why so?" asked a young millionaire.

"Because," she replied, "he goes so high that it makes him dizzy."—Detroit Free Press.

Pills That Have Benefitted Thousands—Known far and near—Dr. Hamilton's remedy in the treatment of indigestion and all derangements of the stomach, liver and kidneys, Parmelee's Vegetable Pills have brought relief to thousands when other specifics have failed. Innumerable testimonials can be produced to establish the truth of this assertion. Once tried they will be found superior to all other pills in the treatment of the ailments for which they are prescribed.

Generous Offer

He—I told your father I could not live with you.

She—And what did he say?

He—Oh, he offered to pay my funeral expenses.

If one be troubled with corns and warts, he will find in Holloway's Corn Cure an application that will entirely relieve suffering.

There were in Argentina at the close of 1910 approximately 15,875 miles of railway, as compared with fourteen thousand four hundred and eighty in 1909. It is estimated that the length of the Canadian railways in 1911 will be 16,500 miles.

DYSENTERY

Dysentery confuses the intestines and speedily eats away the lining, bringing about dangerous conditions that may cause death. Dr. J. D. Kellogg's Dysentery Cordial clears the intestinal canal of the poisonous matter, cause the inflammation, and by protecting the lining from further irritation restores them to healthy condition. Those subject to dysentery should not be without this simple yet powerful remedy.

CAT COST MILLIONS

Persian Feline That Was Hated by Parsees Loved by Mohammedans

The Zigan passion for law reached its record in a case just finished after a six years' litigation in the courts about a cat. That feline animal has cost millions since the quarrel began.

As the Parsee and the treasured Persian pets of the world's wealthy women hailed originally from the same land, it is a peculiar fact that the Parsee regards all cats with loath ing. So when a wealthy Parsee found the domestic pet of his Mohammedan neighbor, Mookerjee, wandering into his house every night and curling up in the most sacred corners of his abode he sent sharp protests next door. Mookerjee gave him the laugh, so he threatened to kill the cat next time it intruded.

Cat Came Back

Along came the cat the following night and started to sleep in the place. So the Parsee slipped her into a sack and threw her out of the nearest window. The Mohammedan servant picked her up and reported to his master, who declared an eternal feud on his neighbor. The corresponding dence that followed was heavily charged with oaths, and soon the cat disappeared and matters took a serious change.

Mookerjee swore the Parsee had drowned her in the River Tapti. He gathered his servants and they fought the Parsee's retinue from dawn till dark. Then they took the law courts. Mookerjee discovered that his neighbor was using part of his land for a roadway, so he sued for damages. The Parsee countered with a claim that Mookerjee had roped in part of his land, and added it to his garden. Every night the servants stoned each other, in emulation of the ill-will between their masters till neither house had any glass left in the windows.

Appeal After Appeal

From court to court the law suits were taken on appeals and counter claims until the Mohammedan had to call hand to satisfy the legal costs and the Parsee had to recourse to the money-lenders.

Then a little while back Mookerjee heard a noise in his bedroom. It was his old cat come back in a wealthier, beaten condition from her wanderings far afield.

The Chinese water buffaloes, which turn the wheels of the machines used for raising water for irrigation purposes, are blindfolded to prevent dizziness.

Very curious and slightly interesting is the fact that we have feet to need a holiday so badly as the day after we have had one.

The man who will break his word will smash anything that will come within his reach.

C. P. R. Constructing New Lines

Not for many years has the Canadian Pacific Railway had so many new lines of track under construction as they have this year. New lines are being built practically all over Western Canada, and hundreds of gangs of track builders are at work in the various provinces. The C. P. R.'s network of new lines is rapidly extending into new districts, and as fast as they are being built they are being opened for traffic. Since the middle of June five or six new services have been inaugurated, and it is stated that there are several other lines which will be carrying regular trains before the end of November. These new lines are among the greatest inducements to new settlers to open up new districts, as when the services are established they have transportation facilities for getting their produce to the markets. For the incoming settlers of next year it is stated that the C. P. R. will push to completion nearly four hundred miles of new line in Alberta and Saskatchewan. These lines include that from Moose Jaw southwest, 35 miles; Kerrobert, northeast, 25 miles; Weyburn branch extension, 21 miles; Estevan Branch, 55 miles; Swift Current, southeast, 45 miles; Wilkie, northwest, 25 miles; Wilkie, southeast, 31 miles; Kinbrook Branch extension, 27 miles; Strathmore to Kindle Lake, 30 miles; and the Kipp branch extension, 27 miles.

What poverty is like that of moral penury? When the head is poor, what mockery is money wealth!

A SENSIBLE MERCHANT

Bear Island, Aug. 26, 1902.

Minard's Liniment Co., Limited.

Dear Sirs,—Your traveller is here today and we are getting a large quantity of your MINARD'S LINIMENT, and find it the best remedy on the market making no exception. We have been in business thirteen years, and have dropped them all but yours; that sells itself; the others have to be pushed to get rid of.

W. A. HAGERMAN.

The grape vine was brought from the island of Crete and introduced into the Canaries in the fifteenth century. Some of the famous wines named fo: those islands.

AFTER EFFECTS OF FEVER

How to Build up Health and Strength After Wasting Disease

When the fever has run down following attacks of fever, la grippe, or other wasting diseases, Dr. Williams' Pink Pills are of great value. They make new rich blood, which reaches every organ and every nerve in the body, and in this way restore the patient to active health and strength. Proof of this we give in the case of Mrs. James Randall, Silverstream, Sask. who says:—"I feel that it there is anyone who ought to testify to the merits of Dr. Williams' Pink Pills it is myself. Some years ago I was taken down with typhoid fever which left me in a very weak state and my system became run down. Even a drink of milk would cause me pain. To make matters worse the change of life came on me, and although I was under the care of one of our best doctors, I was steadily growing worse. Before I got sick I had often read of Dr. Williams' Pink Pills, but thought no more about them. But now when I was sick and helpless and almost hopeless, and with no benefit coming from medical treatment, I kept faithing of the Pills and finally decided to try them. I did so and I am thankful to be able to say that they restored me to health and strength, and enabled me to pass through that trying period. From which so many poor women emerge with shattered health. I hope that many other poor sufferers may read this statement and take fresh courage from it, as I am sure that what Dr. Williams' Pink Pills have done for me, they will do for others. I may add that I always keep Dr. Williams' Pink Pills in the house, and feel that they are better than a doctor."

These Pills are sold by all medicine dealers or may be had by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

The professor of shorthand adduced this unanswerable argument in an address to a new class the other day:

"We are told that it took Gray, author of the well known 'Elegy in a Country Churchyard,' seven years to write that famous poem. If he had used stenography he could have done it in seven minutes. We have students who have done that same poem in that length of time."—Tit-Bits.

Minard's Liniment Relieves Neuralgia

Some folks are under the erroneous impression that ivy on the outside walls of a house tends to make it damp. A thought on this subject is enough to convince one of its fallacy, since the ivy must perforce extract the damp from brick or stone work in order to live, for this moisture is essential to the plant.

Of the 955 cotton seed oil mills in the world 810 are in the United States.

It Will Cure a Cold.—Colds are the commonest ailments of mankind and if neglected may lead to serious conditions. Dr. Thomas' Eclectric Oil will relieve the bronchial passages of inflammation speedily and thoroughly and will strengthen them against subsequent attack. And as it eases the inflammation it will stop the cough because it allays all irritation in the throat. Try it and prove it.

Experiments prove that the gums of trees, so highly prized by man, are produced by disease. Trees can even be inoculated and made to furnish the coveted gum.

New on the Job

"Your wife wants you on the telephone," announced the new boy in an office where two different phones were installed.

"Which one?" inquired the boss, thinking of the two telephones.

"Please, sir," said the boy, "I don't know how many you have."

IN DREAD OF PILES

Many Believe That Nothing Short of the Surgeon's Knife Will Effect Cure. They Do Not Know.

DR. CHASE'S OINTMENT

The agony caused by the intense itching, the depressing and debilitating effect on the system, the dread lest a surgical operation might be necessary—these are the things which make piles or hemorrhoids so distressing.

The doctors have been recommending operations as the only sure cure. But the surgical operation, with all its dangers and expense and pain, does not usually last a lifetime cure.

Many a case has been cured by Dr. Chase's Ointment after the surgical operation had failed. Here is a case which doctors gave up.

Mr. J. G. Mawyer, Roden, Man., writes: "Dr. Chase's Ointment is a wonderful preparation. I had itching piles for over six years, and though I tried two doctors' prescriptions and used many other preparations could not obtain much benefit. The doctor told me there was no cure for me, and that I would have to undergo an operation.

"I bought a box of Dr. Chase's Ointment and was completely cured in one week. As this was six months ago and there has been no return of the trouble, I believe that the cure is a permanent one."

One thing certain Dr. Chase's Ointment will bring you relief from the dreadful itching and burning almost as soon as applied.

It will do more than relief, it will make the cure thorough and lasting. It is only necessary for you to keep up the treatment regularly and persistently. Don't be satisfied with relief, Dr. Chase's Ointment will cure completely if you will do your part. 60 cents a box at all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Is Your Left Hand a Shirker

Most people never think what a shirker the left hand is. Our two eyes and our two ears and our two feet work equally, or very nearly so. But the left hand only works at what the right hand cannot do alone. In sports the athletes are trained to use both hands and fingers more carefully than any where else in the world. Japanese children can do and make things with their feet that are beyond us. We have seen boys and girls, and nearly all of the Japanese, young and old, can draw with both hands at the same time.

We can do the same if we had been taught to do it. In the mechanical trades are already training children to use both hands, and this get doubtless will come out of the life. The pupil merely makes lines, at first straight and curved ones, using both hands at once. With his right hand he draws, perhaps curved lines parallel to one another, while with his left hand he draws a series of short straight lines, after a while he makes loops and figures, and finally his left hand becomes just as good a worker as his right.

Dry some corn this way and see if you do not like it as well as when cannot. Pick the corn when just right for the table or younger than some people like it, and do this in the morning. Cut it off and spread in a thin layer on earthen dishes and set in a cool oven when baking often. Try to have it cook by night as it is not so good if it gets cold and has to be heated again. Put it in a bag, hang it up in a dry place and occasionally shake for a day or two, then put away for winter use. To use, rinse in cold, put to soak for several hours, then cook slowly in the water it was soaked in, adding enough milk to cover well. Some milk and butter added at the last improves it.

The late King Edward had typewriting machines introduced for the convenience of his secretary.

TOLD HER TO REST BUT SHE COULDN'T

BUT MRS. CHEFF FOUND A CURE IN DODD'S KIDNEY PILLS

She Suffered from Rheumatism, Neuralgia and Other Symptoms of Diseased Kidneys—Dodd's Kidney Pills Made Her Strong and Healthy.

Peveril, Vanderhoof Co., Que. (Special)—One more of the tired, pain-wrecked women of Canada has found relief and new life in Dodd's Kidney Pills. She is Mrs. Jos. Cheff, of this place, and she never tires of telling her friends of the wonderful cure, or singing praises of the good old remedy that brought it about.

Suffered from Rheumatism.

Neuralgia, Violent Headaches and Palpitation of the Heart.

Mrs. Cheff states: "My back ached. I was always tired and nervous and I had weak spells. My doctor told me to get rest, but that was just what I couldn't do, until reading of the cures of others led me to try Dodd's Kidney Pills.

"From the first dose they helped me. I soon left my bed and started to do my ordinary housework.

"I took in all, twelve boxes of Dodd's Kidney Pills and now my health is excellent. I recommend Dodd's Kidney Pills to all suffering women."

Thousands of Canadian women will tell you that Dodd's Kidney Pills are the one sure thing for suffering women.

WORRYING HIS WORSHIP.

About the Strange People Who Pester the Magistrate.

The magistrate is the "poor man's lawyer," and while sitting on the bench he has some weird and wonderful applications made to him. Anyone who listened in a London court to the strange medley of "business" that is transacted before the ordinary cases come on would soon see that there is a vast proportion of the British public who imagine the Bench to be all-powerful and endowed with unlimited knowledge, says a London paper.

His worship sees a very great deal of the seamy side of life, but, fortunately, his day's grim duty is relieved by quaint touches of humor.

Many of the people in the underworld, either ignorant of the correct way to address a magistrate, or awed into confusion, make amusing mistakes on this account. They say, "Your lordship," "Mister," or "Your honor." But nobody smiles; that sort of thing is far too frequent.

Apparently, many of the poorer folk think his worship has merely to raise his little finger, and the whole power of the Empire can be called to do his bidding.

A woman with fiery red hair stands up in court, eyes his worship, and then pours out her troubles.

"Liza Awkins, which she lives down our passage, calls after me 'carrots,' your worship. I says nothin', 'eptin' scratch 'er face, and now she's took to walkin' out wiv my young man."

"Well, what do you expect me to do?" asks the busy magistrate wearily.

"A thousand pounds for her trouble."

Even if he had time to argue with her, it would take a long time to convince this lady with the red hair that he has no power whatever to adjust all the lovers' quarrels in London. Jealousy is at the root of a great many of these applications.

In many cases the services of that Admirable Crichton, the warrant-officer, are utilized. Without a piece of his paper in his hand, he goes round and explains delicately that official notice has been taken of the situation. In nine cases out of ten his influence produces a remedy—at any rate, for the time.

Sometimes a burly navvy comes in court with a pitiful tale to the effect that his wife positively refuses to unlock the door of his home when he returns from work. Again the warrant-officer is instructed to adjust matters, and generally he manages to heal the domestic differences on a more satisfactory footing.

Generally the applicants have not the remotest notion on what legal grounds they can obtain the issue of a summons; but stipendiaries, as a rule, exercise all their patience in endeavoring to help the people who feel they have a grievance.

"Please, sir, I want a divorce," or, "So-and-So owes me five shillings, and won't pay it back," are very common examples of applications, which show that the applicants do not know the difference between one court and another.

"Will you, sir, please send a policeman round to my son a good hiding, as I can't do it?" was a very recent notable request. The magistrate sent his over-worked warrant officer to inspire fear in the heart of the unruly youngster, though not in the method suggested by the parent.

These are but typical instances of the multifarious duties which confront a magistrate daily, and many of the applications have no connection whatever with law. The pupils want advice, and having nobody in the whole world to turn to, they step into the witness box in his worship's take part of life's burden from them.

Churches In Queer Places.

How many readers attend a church within a windmill, or a church on a pier out at sea, or one which floats on the water? Yet, strange as it may be found that churches exist in these and similar quaint places the world over.

The church built in a windmill is situated on Regata Heath, and is a favorite with seamen.

It is Hirsemhe that boasts the only place of worship in existence that is entirely out at sea. At one time this church was used as a lighthouse. Special services are now held there for sailors to pray for their comrades during a storm at sea.

There are several floating churches, but perhaps the most interesting of these is that on the Rhine near Peterborough. This church-boat was built because the ordinary parish church was too far away for numbers of the parishioners. On the bridge which spans the Don at Rotherham is situated an interesting sacred edifice which dates from the fifteenth century.

Another church, which is suspended to a bridge, is the Church of St. Swithin's, Winchester. The reason given for this place of worship being on a bridge is a curious one. It is said that King Charles, being in need of a short cut to Winchester Cathedral, had a footway cut through the church of Swithin's Church. A gateway was built which is to this day known as the King's Gate. Nowadays public prayer services are held in St. Swithin's Church.

A Wheelbarrow Tramp.

Alexander Livesay, the wheelbarrow tramp, died a few days ago. He started his tramp from Ayr to John o' Groats and then to Land's End and back to the starting point at Ayr via Wales. Livesay, who is over fifty years of age, is of small stature and has a wiry frame. Though during the 2,000 mile journey he tramped daily, except Sundays, when he rested. On the journey he pushed in front of him a large barrow, and no matter what kind of weather prevailed he stuck to his program and did not have a great reception on his arrival at Ayr.

Another Howler.

A Portobello schoolboy has produced the champion howler of the season. The passage for paraphrase was from Kingsley:—"For men must work and women must weep, though storms be sudden and waters deep, and the harbor bar be moaning." "Men and women," said the youngster, "must keep on working through the inn at the harbor is groaning for its customers."

GUARANTEED TO BE PURE.

PE-RU-NA FOR COUGHS AND COLDS

Female and Woman.

In all our language there are few words more noble than woman. It means literally wife-man, with all of the gentleness and strength that the words wife and mother convey to us.

"Women are soft, mild, pitiful and flexible" says the great poet. Woman is an exalted term, we speak of a woman with a reverence amounting almost to adoration, the highest type of the sex, august, is woman.

The antithesis of woman is female, a term of chicquy as applied to the sex. Kipling savagely applying it says, "the female of the species is more deadly than the male." A noble woman, a female animal describes the contrast in the terms Woman and Female.

The Woman clothes herself becomingly, the female lewdly discloses her physical attractiveness. The woman stands upon a pedestal compelling mens admiration, the female plays upon their passions inciting them to evil. Fashion, that bane of the sex, seeks to tear the woman from her pedastal and make her a common thing that men would prey upon. Dress, the insidious leveller, would make the woman in appearance the same as the Parisian demi-mondaine, who originate the fashions many American ladies follow.

Sarah Bernhardt is authority for the statement that no self respecting French lady would appear in such costumes as the Americans habitually wear in public. Our community is happy in that our wives and mothers and daughters are women, who set their faces like flint against the degrading unseemliness which characterizes the female.

Zebulon Skouson has been duly appointed town Marshal and Supervisor for one year by the Town Council. We are certain that a better man could not have been chosen to succeed T. W. Harris. It requires an all round man, one who is not afraid of work to fill a position of this character. We are confident we have the right man in Zebulon Skouson.

[continued from front page]

Lethbridge to Get Big Malting Plant

age for 500,000 to 1,000,000 bushels for barley alone, and while I have not been all over your country, I am sure from what I have seen that even this year there is upwards of 300,000 bushels of barley fit for marketing for malting purposes. When the farmers find there is a profitable market for it, all will engage in it, and the result will be such great successes that the value of all the land will be increased, and there will be continuous prosperity, for barley is a crop that can be grown every year.

Some farmers have an idea that barley will grow on any poor old land. It may but it is not the kind that pays best, Barley wants good land and it does not exhaust good land. It is not nearly as hard on the soil as wheat, and it will grow on dry land every year where wheat will not. It is a weed killer because it grows faster than weeds, and it is cut down before the weeds go to seed. It has got everything in the grain line beaten where it is grown on soil that is suitable, and most of the land of the southern portion of Alberta is the proper soil for barley.

We must try our best to get this malting plant going. I have conferred with my financial interests and have obtained a large sum of money to put into it. Mr. Sick, manager of the Lethbridge brewery, is much interested, and has agreed to go into it on a large financial basis. One man whom I met in Lethbridge has taken $50,000 of stock on behalf of a pool of large moneyed interests. We shall not use more than $50,000 more, and I want that to come in subscriptions from progressive farmers, because they are the men who will sustain the plant thro' our being able to depend upon them to grow barley in large quantities and that every year. They can afford to for they will be getting about 10 cents more than the market price at Winnipeg and besides will be sharing in the dividends of the plant, and I am guaranteeing that the dividends will not be less than 25 per cent annually of the capital invested.

I have requested W. D. Finlay Secretary of the Associate Boards of Trade of Southern Alberta, who I have discovered is the hustler Southern Alberta should be glad to get behind, to get for me the names and addresses of every farmer in the south country who is raising barley and who has any to market. Every farmer should send him a sample of a pint, even if rubbed out by hand, and that at the earliest convenience, and be sure to notify him how many bushels they anticipate they will have of the kind they will submit sample of. Mail it to W. D. Finlay, Lethbridge. Now they should not go out of their way to pick out a few large nice fat plump kernals and call them a fair sample, but send him a sample as the grain runs. When I receive the sample through him I will at once test them and inform him what the grain is worth free on board your nearest shipping point. And I will buy all the best barley I can get and pay a premium price for it. Farmers should get busy at once.

I am called back to Winnipeg to confer with architects as to plans for the big malting plant, and I shall be ready to start work this fall, believe, and can have it in operation 90 days after the first pick is thrust into the ground, if it does not freeze up too hard to work. We are going to build this plant; and the farmers should cooperate with us in doing it, for it means a great deal to them. I shall return in a few weeks, and will arrange to meet all those who want to go into the details of the matter and it will be pleasure to meet every barley grower in Southern Alberta."

THE SUPREME COURT OF ALBERTA

1913 1914

Sittings of the Supreme Court of Alberta, en banc, and for the trial of cases, Civil or Criminal, and for the hearing of motions and other civil business, will be held at the following times and places for 1913-1914. When the date set for the opening of a Court or Sitting is a holiday, such Court or Sitting shall commence on the day following such holiday:

Judges of the SUPREME COURT en banc:

Before leaving Canada, Mr. Hamar Greenwood, Member of Parliament, British House of Commons, wrote to the Grand Trunk Railway System, in connection with his trip over their lines in Canada, and in which he says: "We especially enjoyed the journey from Edmonton to Winnipeg which we made on your system in the best equipped train I ever saw in my life. You have fixed a very high standard, if this train is the standard up to which you are working."

Minard's Liniment Cures Diphtheria.

"Tommy, I noticed you in the front row last night. How did you like the show?"

"Best thing I ever seen! The drummer in the orchestra made twenty-seven different noises with his instruments. I counted 'em."

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for Constipation.

"I don't think my husband loves me any more."

"Why not?"

"The other day I said to him: 'John, if I should die would you get married again?' and he said he wouldn't."

"Isn't that right?"

"Yes, but I wish you could have heard the positive way he said it."

ARE YOU AS WELL AS A YEAR AGO?

DR. WILLIAMS' PINK PILLS POINT THE WAY TO HEALTH AND STRENGTH.

Ask yourself the important question whether you are as strong as you were a year ago, as bodily fit as you would be. Many a reader has to confess "No." Some weakening ailment has during the past year laid hold of the system, unfitting you for the duties of life and seriously clouding the outlook of the coming days. It may be rheumatism with its sharp twinges of pain, indigestion, headache, nervous debility, depression and lack of energy, or the pales and ailments which only common folk know. It is well to know that all these weakening disorders arise from an impoverished condition of the blood. Renew and enrich your blood and all your troubles will depart. This is a strong statement, but it is borne out by the testimony of thousands who once suffered, but who have gained health and strength by the aid of the new, rich blood supplied by Dr. Williams' Pink Pills. We can quote thousands of cases similar to the following: Mr. Geo. Grandmaison is a young man well known in the town of St. Jerome, Que. He says: "For a couple of years I began to find my strength failing, but did not dream that the trouble was serious. Any time I got a chance I went to a doctor, but it did not help me. The last examination made me fear paralysis violently, my stomach seemed out of order and my whole system became run down that I was finally forced to quit work. I had now been doctoring for over six months and was very much discouraged. At this juncture I read of a case similar to mine, cured through the use of Dr. Williams' Pink Pills, and decided to try them. I took the Pills faithfully for about two months gradually growing stronger and at the end of that time I was as well as any man could be. I shall always praise the medicine that raised me from despair to the blessing of good health."

Sold by medicine dealers everywhere or sent by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Women are vain, but men are much more so with far less reason.

The Common Good

There are hours in every life and lives in every generation which belong to the common good. No life, indeed, belongs anywhere else except as by devoting it to the individual self it tends to make that self more fit for individual service. We must get to give, we must climb that we may lift, we must be strong to aid the weak: that is the law of the kingdom.

FOR HOUSEHOLD ACCIDENTS

Zam-Buk is so Very Useful.

Read How Beneficial it Proved in This Case.

Mrs. H. Sawyer, of Keene, Ont., writes:—"My husband is engaged on a farm, and one day, while chopping wood, the top of the axe broke and fell on his foot, cutting a nasty gash. The wound was so bad that we first thought that we would have to get a doctor, but we finally decided to dress the cut with Zam-Buk.

"Well, the Zam-Buk treatment proved a great success. It not only eased the pain but it prevented inflammation and right from first applying Zam-Buk, the cut began to heal. It is now completely healed and my husband says he would not be without a box of Zam-Buk in the house, for we are sure it saved us a great deal of expense."

Over and over again Zam-Buk has been proved to be the worker's best friend. As soon as applied to a cut, a burn, a scald, or any skin injury, it relieves the pain and it sets up healing. It also prevents blood-poisoning or inflammation. It is a sure cure, too, for eczema, piles, ulcers, old wounds, bad leg, ringworm, scalp sores, festering, running sores, eruptions, cold sores, chapped hands, etc. It's absolute purity, activity, and herbal balm for babies.

Zam-Buk Soap should be used along with the balm for washing all sore places. The soap will be found excellent for baby's bath, even where being used.

All druggists and stores sell Zam-Buk at 50c. a box, and Zam-Buk Soap at 25c. tablet, or post free from Zam-Buk Co., Toronto, upon receipt of price. Refuse harmful substitutes.

If requires a great many cow horns to buy an auto-horn and all that goes therewith.

EVERY PLACE ON THE WIDE PRAIRIES

TELLS OF CURES MADE BY DODD'S KIDNEY PILLS.

Thos. Griffin, of Peace River Landing, Tells how he Got Rid of His Rheumatism—Honestly earned popularity.

Cold Springs, Peace River Landing, Alta. (Special)—Just why Dodd's Kidney Pills retain their wonderful popularity is easily shown by a trip across the prairies. In every village and postoffice has at least one man or woman who is ready to tell of pains relieved and health restored by the great Canadian Kidney Remedy. Let Thos. Griffin of this place add his statement to the hosts already published.

"When I came to this part of the country," says Mr. Griffin, "I was troubled with a bad back and Rheumatism in my shoulders and hips. I sent for six boxes of Dodd's Kidney Pills and they relieved me at once. I also recommended them to my eldest son who was confined to his bed from Rheumatism.

"Now I know that Dodd's Kidney Pills are the best medicine for Rheumatism and the Kidneys. I can recommend them to every person I hear complaining of not feeling well."

Dodd's Kidney Pills made their popularity by curing sick Kidneys. They keep their popularity by keeping on curing sick kidneys.

In Holland, the rights of parents are strictly maintained that a man or woman under thirty years of age may not marry without their consent.

Dr. J. D. Kellogg's Dysentery Cordial is compounded especially to cure bad dysentery, cholera morbus and all inflammatory disorders that change of food or water may cause in the stomach and intestines. These complaints are more common in summer than in winter, but they are not confined to the warm months as undue laxness of the bowels may seize a man at any time, and the sufferer will find speedy relief in this Cordial.

The Origin of Restaurants.

The restaurant of the present time had its origin in the first French Revolution towards the close of the eighteenth century. And the republican of the French cookery and the delicacy of taste in eating as well as in producing tooth-some dishes originate dates practically from the same time.

That revolution meant ruin to many noble families, and meant ruin also for their chefs, so some of the latter hit upon the idea of opening houses where dainties prepared by their skilled hands could be obtained. If the experiment succeeded the chefs would be as well off as when in service. The idea was pleasing to the public, the restaurants did a large business, and the proprietors had no reason to regret the revolution from a monetary point of view.

Then it appeared to others that the people might appreciate if they could get up to this fine cookery and many books of the culinary art were published, and sold well. One of the most noted of these was "The Gourmand Almanack," which appeared in 1798.

Restaurant really means 'restoring' and was applied to the dishes because you went there to have something to revive and restore your failing strength.

Good News.

"What did ma say to you when you came in?" inquired Johnny of his friend who had come to tea.

"She said she was very pleased to see me."

"I'm glad," said Johnny in a relieved tone. "Cause she said this morning she hoped you wouldn't come!"

ADMIRAL TOGO'S TRIP.

It Led Him to Appreciate the Hospitality of the Canadian Pacific Railway.

(Japan Gazette, September 26.)

On his return trip from England, which he attended as one of the suite of the Imperial Japanese delegation to the coronation, Admiral Count Togo travelled across Canada by the Canadian Pacific Railway—which has been called the "Alliance Route," and was, therefore, rather appropriately chosen on this occasion by this distinguished representative of an entente between the allies. By instruction of the president of the Canadian Pacific Railway Company, Sir Thomas Shaughnessy, Admiral Togo was the guest of the Company throughout, and every effort was made to make his trip pleasant.

The Admiral took the private car "Canada" at Niagara Falls, proceeding to Banff and thence to Vancouver. The "Canada," it should be explained, was the car specially built for the present King and Queen of England, a few years ago, when they made their tour in Canada.

On arrival at Vancouver Admiral Togo telegraphed to Sir Thomas Shaughnessy his heartfelt thanks for the services and arrangements accorded him on the Canadian Pacific Railway, and assuring the president that his trip had been exceedingly pleasant.

It is evident that such indications of a broad spirit of hospitality as that shown by the Canadian Pacific Railway on this occasion makes materially for the promotion of pleasant international relations, and Admiral Togo is only one in a long list of distinguished Japanese who have thus travelled over the Canadian Pacific. Indeed, it may confidently be stated that attentions of this kind to one so much respected and beloved as Admiral Togo are deeply appreciated in the highest quarters in this country.

Minard's Liniment Co., Ltd.

Gentlemen.—In July, 1905 I was thrown from a machine, injuring my hip and back badly and was obliged to use a crutch for 14 months. In Sept., 1906 Mr. Wm. Outridge of Leamington urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results and today I am as well as ever in my life.

Yours sincerely,
his

ONE SINGLE PILL GAVE GREAT RELIEF

FOUR BOXES CURED HIM

Plessisville, Que.

"I suffered from Kidney Trouble for several years, and tried numerous remedies and doctor's prescriptions without permanent relief, my case being pronounced incurable until Gin Pills, and, as it is a well known fact that Juniper without alcohol is excellent for the Kidneys, I decided to try Gin Pills. One single pill gave me great relief. I have now taken almost four boxes of Gin Pills and find myself completely cured. No more bad humor—increase in weight—clear eyes—fresh color—more strength and vigor. This is what Gin Pills have done for me."

(MRS.) FOWIS HERBERT.

Gin Pills will do the same for you—If you have any trouble with your Kidneys or Bladder—or if you suffer with Pain in the Back or Rheumatism. Try them before you send them. Write National Drug & Chemical Co. of Canada, Limited, Dept. N. U., Toronto, for free sample. Then get the regular size at your dealer's—50c. box, 6 for $2.50.

The original Gin Pills made by National Drug and Chemical Co. of Canada Limited, Toronto, are sold only in this box.

C.P.R. Largest Steel Rails Consumer

It is understood that the Canadian Pacific Railway is in the market for 50,000 tons of steel rails. This would seem to strengthen the statement that the Canadian Pacific will complete its new Western lines to completion. Building, as it is now, nearly two miles of new track every working day in the year the C.P.R. is probably the largest individual consumer of steel rails on the continent.

Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

If our mistakes teach us nothing it were hardly worth while to make them.

They Soothe Excited Nerves—Nervous affections are usually attributed to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them and in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified to by thousands.

A Plea for the Lonely

The merry world goes round, time flies, and we eagerly grasp every pleasure that comes within our reach; but how often do we pause and consider the lonely ones, of whom there are so many in our midst? At every doors there is someone who needs a cheering word and a helping hand. It is not money or alms that are wanted, but human sympathy.

You who have dear ones around your hearth cannot realise what it means to be a stranger in a strange city with none to extend a friendly hand. Riches may buy false friendship, but poverty has even that, and the lonely toiler finds none who care or sympathise, and the path is hard indeed.

The girl in the office flyes, maybe, just alone in rooms; fine folk don't ask her out because she is in business; and just the same applies to the boy at the desk. But both are hungering, doing their duty bravely. Both lives would be brightened if you asked them to your house and tried to banish the homesickness and loneliness by sympathy and friendliness.

Won't you try and bring a little cheer to lonely hearts that come your way? You won't have far to seek them if you wish to play the better part. Never mind if the lonely ones are not in what you call your "set" they are your brothers and sisters in the eyes of God, and not can excuse your neglect of their claims.

The Devil is Coning

Dear Mr. Grain Grower:

The harvesting season is here again, and we wish to call your attention to our standing as a reliable Grain Commission firm, ready to be of service to you in disposing of your grain at the highest possible market price. The way to make the most money in marketing your grain is to load over the platform into cars and ship direct to Fort William or Port Arthur; then have the same sold on commission on the Winnipeg market.

We make a specialty of this side of the grain business, and being a firm in good repute, with many satisfied customers, we are confident it will be to your advantage to send us your shipping bills with selling instructions. We are prepared to advance money immediately on receipt of shipping bills. We watch the market closely and always endeavor to sell on a bulge so as to give our clients the benefit of the highest price going. On receipt of sample we will grade your grain free of charge, and on request will send our weekly market letter showing the tendency and conditions of the grain market.

If you have enough grain to make a carload do not fail to write us for information.

Yours very truly,

Monarch Grain Company.

PRAIRIE FARMERS AND FACTORIES

Are Mutually Helpful and Will Continue to be so in Years to Come

In an address before the Canadian Credit Men's Association at Winnipeg Mr. S. R. Peff, M.A., discussed points of much interest to the whole Canadian West. His remarks may be digested as follows:—

There is a dual development under way in Western Canada that bodes well for sound progress. Movements towards diversified agricultural and industrial production are now characteristic of rural and urban development, respectively throughout the West. And the movements are correlated more closely than appears at a casual glance.

Take, for instance, the relation between the cereal milling industry and animal husbandry. Partly, no doubt, to take advantage of the Panama route, and partly on account of the cheapness of power (which in milling is of relatively greater importance than in industries requiring more manual operatives), the milling and packing companies are gradually making Southern Alberta an industrial territory of importance.

Now glance at what this means to diversified agriculture, as well as to the revival of ranching over less fertile districts. In the first place, the upgrowth of industrial centres supplies ready and profitable markets for the varied products of the soil. Produce too perishable for long shipment will find ready sale close at hand. Then the available by-products from cereal mills should do much in re-establishing and expanding the live stock and dairying industries throughout the West. Lately, the provincial governments, the railroads and the packers have turned their hands in a systematic effort towards the upbuilding of the live stock industry. The increased interest along these lines is having a salutary effect already upon the financial condition of the Western farmer. The manager of a large loaning institution not long ago remarked that he could always tell when any district began to go in for mixed farming by the increased promptness of the company's collections throughout the locality.

As to manufacturing, during the five years from 1905 to 1910, the three prairie provinces more than doubled the annual value of their industrial output, the census figures for 1910 being $77,000,000. That the annual total now runs well up to the $100,000,000 mark admits of small doubt.

NATIONAL POLICY A POTENT FACTOR

In Canada's Enormous Progress—Great Strides Since Introduction of Protection

In his valedictory Mr. A. R. Clarke, retiring chairman of the Toronto Branch of the Canadian Manufacturers' Association said in part:—

"It is satisfactory in one sense, to have more orders offering than we can fill, but if we do not take care of the orders, some one else does, and the result is an economic loss. There is a heavy economic loss in Canada. Very large amounts of money are sent to foreign countries for the purchase of merchandise that could be made in Canada.

"May I recall the fact that it was in 1878 that the National Policy was announced, and that following its announcement it was endorsed, not only by the Canadian Manufacturers' Association, but by the people at large. Though thirty years have since elapsed, the same policy, with such few modifications as changing conditions have warranted, has been the bulwark of Canada's prosperity.

"It was realized then, as it is now, that it was essential that Canadian industry should have protection in its own market and that Canada should not be made the slaughter market for our neighbors to the south. That this result has been achieved in some measure is apparent to the great development in size and variety of industries that have grown up in Canada, in many cases from small beginnings. This policy of moderate protection has been a very decided factor in turning the tide of immigration in our own direction.

"It behooves us, therefore, as consumers, producers, manufacturers, or as citizens—take it any way you will—to stand together and resist any attempt to turn back the established prosperity which dominates Canada at the present time. The Canadian West is securing a number of the industries fostered by the tariff, and it stands to obtain a great many more under a perpetuation of the present fiscal policy."

A machine shop, costing $10,000, is being erected in Calgary, Alta., by the Canada Malting Co.

ICE-CREAM & SOFT DRINKS

B.C. CAFE
DONG CHO, Prop.

Mrs. Geo. Kirkham gave a little afternoon last Tuesday, for her two sisters Mrs. Asher and Miss Briggs. The refreshments were lovely and the crowd one of the jolliest that could be got together. Several new musical artists were unearthed, so the public may expect much good music as a result.
